

APPROVED

by the order of the Cabinet of Ministers of Ukraine

dated 2024, No.

IMPLEMENTATION PLAN  
for delivering tasks in 2024—2026  
National Mine Action Strategy for the period up to 2033

Task	Initiative	Timeframe	Sources of funding	Progress indicator	Agency Responsible for Implementation
------	------------	-----------	--------------------	--------------------	---------------------------------------

Strategic Goal 1: Ensuring the Clearance of Territories from the Risks

Associated with the Presence of Explosive Hazards for their Safe and Productive Use.

1. Conducting systematic surveys of territories to determine the scale and geographical boundaries of areas at risk of contamination with explosive ordnance;	1) development of an annually humanitarian demining action plan	annually	state budget	an annual plan of humanitarian demining activities has been developed and approved, which includes 100 percent coverage of the territories in Ukraine where humanitarian demining may be conducted through primary non-technical surveys.	Ministry of Defence of Ukraine SESU mine action operators (upon consent) Regional military administrations
---	---	----------	--------------	---	---

Task	Initiative	Timeframe	Sources of funding	Progress indicator	Agency Responsible for Implementation
	2) planning tasks for surveying the presence of explosive ordnance in internal waters, territorial sea, and the exclusive maritime economic zone of Ukraine after the end of hostilities	within three months after the end of hostilities	state budget	a plan of procedures for surveying the presence of explosive ordnance in internal waters, the territorial sea, and the exclusive maritime economic zone of Ukraine has been developed and approved.	Ministry of Defence of Ukraine Ministry of Internal Affairs of Ukraine SESU Ministry of Infrastructure of Ukraine Ministry of Energy of Ukraine Ministry of Economy of Ukraine Ministry of Environmental Protection and Natural Resources of Ukraine Ministry of Agrarian Policy and Food of Ukraine State Maritime and River Transport Service of Ukraine
	3) ensuring prompt response to the detection of explosive ordnance at maritime and inland waterway transport facilities	constantly	state budget other sources (donor funds, funds of international organisations)	prompt response to 100 percent of cases of detection of explosive ordnance at de-occupied maritime and inland	Ministry of Defence of Ukraine Ministry of Internal Affairs of Ukraine SESU

Task	Initiative	Timeframe	Sources of funding	Progress indicator	Agency Responsible for Implementation
	4) conducting a primary non-technical survey of the territories of Ukraine affected by hostilities	2024-2026	state budget	waterway transport facilities was ensured 100 percent of the primary non-technical survey was carried out of the planned territory* in 81 territorial communities (except for the territories where hostilities are taking place and the 20-kilometre zone from the line of contact), and suspected/confirmed contaminated areas are identified.	Ministry of Defence of Ukraine Mine action operators (upon consent)
	5) defining criteria and developing a procedure for surveying the territory affected by hostilities using innovative technologies (unmanned aerial vehicles, satellite images, etc.) as part of a non-technical	Q4 2025	state budget other sources (donor funds, funds of international organisations)	a regulatory act was developed and adopted, establishing the procedure for surveying territories using innovative technologies (unmanned aerial vehicles and satellite images) as part of a non-technical survey	Ministry of Economy of Ukraine Ministry of Defence of Ukraine SESU Ministry of Agrarian Policy and Food of Ukraine Ministry for

Task	Initiative	Timeframe	Sources of funding	Progress indicator	Agency Responsible for Implementation
	survey, considering international experience				Strategic Industries of Ukraine State Space Agency of Ukraine
	6) releasing critical infrastructure facilities and the surrounding area from explosive ordnance in the de-occupied territories	constantly	state budget	prompt response to 100 percent of cases of detection of explosive ordnance at critical infrastructure facilities in the de-occupied territories (considering the security situation)	Ministry of Defence of Ukraine Ministry of Internal Affairs of Ukraine SESU
	7) creating and functioning of a register of suspected/confirmed contaminated areas.	2024—2026	state budget other sources (donor funds, funds of international organisations)	a a register of suspected/confirmed contaminated areas created and maintained	SESU Centre for Humanitarian Demining Ministry of Internal Affairs of Ukraine Ministry of Economy of Ukraine
	8) conducting a study of the impact of explosive ordnance on the national economy	2024	donor funds	a study was conducted on the impact of explosive ordnance on the national economy with an assessment	Ministry of Economy of Ukraine

Task	Initiative	Timeframe	Sources of funding	Progress indicator	Agency Responsible for Implementation
	9) ensuring the legal regulation of mine action within the framework of the Technical Committee for Standardisation in the mine action area	2024-2026	state budget  donor funds	of such impact on the gross domestic product of Ukraine  amendments were made to the National Classifier NK 004:2020 "Ukrainian Classifier of Regulatory Documents" to introduce a new code "Standardisation in the Mine Action area". The Technical Committee for Standardisation in the Mine Action established and started its work. The Technical Committee has ensured the development of new and revision of existing standards in the mine action area.	Ministry of Economy of Ukraine Ministry of Defence of Ukraine Centre for Humanitarian Demining Ministry of Internal Affairs of Ukraine SESU Mine Action Centre State Scientific Research Institute of Armament and Military Equipment Testing and Certification
2. Determining the criteria for removing the status “suspected contaminated areas” for those territories of Ukraine, where no evidence of contamination by	1) developing criteria and the procedure to exclude areas from suspected/confirmed contaminated areas	Q2 2025	state budget, other sources (donor funds, funds of international organisations)	a mechanism (normative/legal act) on prompt determination of territories’ status where non-technical surveys have not revealed evidence of explosive ordnance was created.	Ministry of Economy of Ukraine Ministry of Defence of Ukraine Ministry of Internal Affairs of Ukraine SESU

Task	Initiative	Timeframe	Sources of funding	Progress indicator	Agency Responsible for Implementation
<p>explosive ordnance has been found during non-technical surveys, and granting such territories an appropriate status</p> <p>3. ensuring stimulation for the Mine Action services market</p>	<p>1) expanding the ways to use funds provided for the state budget to reimburse the costs of humanitarian demining of agricultural lands</p> <p>2) conducting a study on innovative mine action financing instruments</p>	<p>2024-2025</p> <p>2025</p>	<p>other sources (donor funds)</p>	<p>Resolution of the Cabinet of Ministers of Ukraine No. 284 of 12 March 2024 amended, which improved the mechanism for funds' utilization provided by the state budget under the programme "Reimbursement of costs for humanitarian demining of agricultural lands"</p> <p>research was conducted on possible innovative financing instruments to ensure sufficient and sustainable funding for mine action</p>	<p>Ministry of Economy of Ukraine Ministry of Agrarian Policy and Food of Ukraine</p> <p>Ministry of Economy of Ukraine</p>

Task	Initiative	Timeframe	Sources of funding	Progress indicator	Agency Responsible for Implementation
	3) implementing the budget programme "Reimbursement of costs for Humanitarian Demining of Agricultural Lands"	2024-2026	state budget	reimbursement of costs made under all applications that meet defined requirements and submitted for reimbursement of costs of humanitarian demining of agricultural lands	Ministry of Economy of Ukraine Centre for Humanitarian Demining Ministry of Agrarian Policy and Food of Ukraine
4. Establishing innovation-friendly environment in the mine action area	1) implementation of a pilot project on the mandatory certification of mechanised demining (humanitarian demining), related products, components, and equipment	2024-2026	state budget, other sources (donor funds, funds of international organisations)	the number of certified mechanised demining equipment (humanitarian) has been increased: by 10 percent in 2024; by 10 percent in 2025; by 5 percent in 2026	Ministry of Economy of Ukraine Ministry of Defence of Ukraine Ministry of Internal Affairs of Ukraine SESU Ministry for Strategic Industries of Ukraine State Scientific Research Institute of Armament and Military Equipment Testing and Certification Ukrainian Defence Industry (with consent)

Task	Initiative	Timeframe	Sources of funding	Progress indicator	Agency Responsible for Implementation
	2) cooperation with leading foreign partners to localise the production of equipment for humanitarian demining	2026	state budget, other sources (donor funds, funds of international organisations)	at least two foreign partners decided to localise the production of humanitarian demining equipment, establish joint ventures or licensed facilities for the repair and production of humanitarian demining equipment.	Ministry for Strategic Industries of Ukraine Ministry of Economy of Ukraine Ministry of Defence of Ukraine Ministry of Internal Affairs of Ukraine SESU
	3) popularising scientific and technical works in the mine action area, in particular those made under the state order for scientific and technical (experimental) prototypes and scientific and technical products to inform the interested central executive authorities, business representatives and the public	constantly	state budget	disseminating information on prototypes in mine action area on the web resources of the Ministry of Education and Science of Ukraine and other central executive authorities	Ministry of Education and Science of Ukraine Ministry for Strategic Industries of Ukraine Ministry of Defence of Ukraine Ministry of Economy of Ukraine Ministry of Internal Affairs of Ukraine

Task	Initiative	Timeframe	Sources of funding	Progress indicator	Agency Responsible for Implementation
5. Creating conditions for the development of national production of goods for mine action and their servicing in Ukraine	<p>1) introducing mentorship support for mine action equipment manufacturers (methodological assistance, access to databases, information and analytical materials, testing services)</p> <p>2) conducting a needs assessment and identifying a set of measures to develop infrastructure for testing, evaluation, and certification of mine action products</p>	<p>2024 - 2026</p> <p>Q3 2025</p>	<p>state budget</p> <p>state budget other sources (donor funds, funds of international organisations)</p>	<p>assessed the needs of mine action equipment manufacturers and provided mentorship support to such manufacturers</p> <p>a draft action plan to the development of infrastructure for testing, evaluation and certification of mine action products was prepared and submitted to the Cabinet of Ministers of Ukraine</p>	<p>Affairs of Ukraine SESU Ministry of Economy of Ukraine Ministry of Defence of Ukraine State Scientific Research Institute of Armament and Military Equipment Testing and Certification Ministry for Strategic Industries of Ukraine Ministry of Defence of Ukraine Ministry for Strategic Industries of Ukraine Ministry of Economy of Ukraine Ministry of Internal Affairs of Ukraine SESU</p>
6. Ensuring sufficient human resources in	1) ensuring that the number of demining units	annually	state budget	the capacity of the authorised units of central	Ministry of Defence of Ukraine

Task	Initiative	Timeframe	Sources of funding	Progress indicator	Agency Responsible for Implementation
mine action area, in particular through the involvement of representatives related to social categories and groups of special interest to the state in professional participation in mine action	of central executive authorities and their level of equipment meets the current challenges and needs			executive authorities has been amplified	Ministry of Internal Affairs of Ukraine SESU
	2) development and approval of the professional standard "Explosive Ordnance Search Operator (Deminer)"	2024		ensured conditions to provide mine action operators with sufficient human resources through the professional standard "Explosive Ordnance Search Operator (Deminer)" in accordance with international EOD qualification levels	Ministry of Economy of Ukraine
	3) implementing measures to assign/confirm qualifications in the following working professions: sapper (demining); deminer	2024-2026	state budget local budget Other sources (donor funds, funds of international organisations)	confirmation/assignment of qualifications in the following working professions: sapper (demining); deminer in accordance with international levels of sapper qualification (EOD) has been introduced	Ministry of Education and Science of Ukraine Ministry of Economy of Ukraine Ministry of Defence of Ukraine Ministry of Internal Affairs of Ukraine

Task	Initiative	Timeframe	Sources of funding	Progress indicator	Agency Responsible for Implementation
	4) approval of state educational standards and development of learning materials for educational stakeholders in the mine action area	2026	other sources (donor funds, funds of international organisations)	the state educational standard was approved, and learning materials were developed for educational stakeholders in mine action area, including electronic materials that are available to parties of the educational process	Ministry of Education and Science of Ukraine Ministry of Economy of Ukraine Ministry of Defence of Ukraine SESU
	5) taking measures to control the process of training organisation for employees in the field of handling explosive materials for demolition works related to disposal of explosive ordnance during mine action and periodic activities (at least once every two years) knowledge checks	constantly	state budget	confirmation/assignment of qualification introduced under the profession of demolition expert for a special type of demolition work: demolition work related to the destruction of explosive ordnance during the mine action activity	Ministry of Economy of Ukraine State Labour Service of Ukraine
	6) ensuring systematic communication with the public on the involvement of war veterans in professional work in the mine action area	constantly	other sources (donor funds, funds of international organisations)	conditions have been created to engage war veterans in mine action work	Ministry for Veterans Affairs of Ukraine Ministry of Economy of Ukraine

Task	Initiative	Timeframe	Sources of funding	Progress indicator	Agency Responsible for Implementation
	7) ensuring the creation of conditions based on veteran development centres for professional training of war veterans and members of their families to engage them in mine action	Q2 2025	other sources (donor funds, funds of international organisations)	opportunities for war veterans and members of their families for employment in the mine action have been expanded	Ministry for Veterans Affairs of Ukraine
	8) conducting awareness-raising campaigns among women on the possibilities of professional involvement in mine action	2024	other sources (donor funds, funds of international organisations)	awareness among women of professional development opportunities in mine action was raised	Ministry of Economy of Ukraine
	9) conducting workshops to identify and remove barriers for women in mine action	2024-2025	other sources (donor funds, funds of international organisations)	at least two workshops held to develop solutions for removing barriers for women in mine action, promoting gender equality, and fostering cooperation in the sector. These efforts aimed to create conditions, including a non-discriminatory environment, that are conducive to women's involvement in mine action.	Ministry of Economy of Ukraine Government Commissioner for Gender Policy
	10) providing mentoring and support for persons	Q3 2025		a system of appeals and support for survivors in the	Ministry of Economy of Ukraine State Employment

Task	Initiative	Timeframe	Sources of funding	Progress indicator	Agency Responsible for Implementation
	with disabilities and/or individuals affected by explosive ordnance involved in mine action			job search process in the mine action was created, and consultations were held with representatives of mine action operators on the specifics of hiring, working, and arranging workplaces for persons with disabilities and individuals affected by explosive ordnance	Service Regional military administrations local self-government bodies (with consent)
	11) developing information materials (recommendations) for mine action operators on creating working conditions for war veterans and other social groups of special interest to the state	Q4 2024	other sources (donor funds, funds of international organisations)	information materials (recommendations) were produced for mine action operators on creating working conditions for war veterans and other social groups of special interest to the state	Ministry of Economy of Ukraine
	12) stimulating women's involvement in professional development and employment in mine action.	annually		at least two professional mine action training courses per year have been conducted for women.	State Employment Service Ministry of Economy of Ukraine Government Commissioner for Gender Policy
	13) stimulating the professional development and employment of persons	annually		at least two professional mine action training courses per year have been	State Employment Service State Labour Service of Ukraine

Task	Initiative	Timeframe	Sources of funding	Progress indicator	Agency Responsible for Implementation
	with disabilities in mine action, in particular in relation to victim assistance and risk education, which will facilitate their social adaptation and integration into society			conducted for persons with disabilities and individuals affected by explosive ordnance	Ministry of Economy of Ukraine
	14) stimulating professional development and employment of war veterans in mine action, promoting their professional integration.	annually		at least two professional mine action training courses per year have been conducted for war veterans.	State Employment Service Ministry of Economy of Ukraine Ministry for Veterans Affairs of Ukraine

Strategic Goal 2. Reduction of the Impact from Explosive Hazards on the Lives and Wellbeing of the Population.

7. Ensuring public awareness regarding the geographic boundaries of suspected contaminated areas, notably through the adept demarcation of pertinent locales;	1) Ukraine's compliance with its obligations under the Convention on the Prohibition of the Use, Stockpiling, Production and Transfer of Anti-Personnel Mines and on Their Destruction was ensured	constantly	state budget	conducting campaigning and educational activities with the personnel of the Armed Forces units on the non-use of anti-personnel mines	Ministry of Defence of Ukraine Mine Action Centre
	2) conducting classes in educational institutions	constantly	state budget other sources	increased public awareness of explosive	Ministry of Education of Ukraine

Task	Initiative	Timeframe	Sources of funding	Progress indicator	Agency Responsible for Implementation
	(including preschools) on the prevention of risks associated with explosive ordnance or suspicious items and the rules for handling such items		(donor funds, funds of international organisations)	ordnance risk through explanatory activities in educational institutions for employees of enterprises, institutions, and organisations, primarily in the de-occupied territories and adjacent territories	Science of Ukraine Ministry of Reintegration of the Temporarily Occupied Territories of Ukraine Ministry of Defence of Ukraine National Police of Ukraine SESU
	3) creating content for the interactive map of the confirmed contaminated areas	constantly	state budget other sources (donor funds, funds of international organisations)	improved public access to information on the boundaries of suspected/confirmed contaminated areas	Ministry of Defence of Ukraine Ministry of Digital Transformation of Ukraine
	4) marking of contaminated areas, monitoring the state of marking as part of humanitarian demining activities	constantly		marking is provided for 100 percent of identified suspected contaminated/contaminated areas	Ministry of Defence of Ukraine authorised units of executive authorities Mine Action Centre Centre for Humanitarian Demining mine action operators (with consent) local self-government bodies (with consent)

Task	Initiative	Timeframe	Sources of funding	Progress indicator	Agency Responsible for Implementation
	5) establishing administrative liability for damaging marking systems	Q2 2025		a regulatory act establishing administrative liability for damage to marking systems was prepared and approved	Ministry of Internal Affairs of Ukraine
	6) conducting information campaigns aimed at raising public awareness of the risks of handling explosive ordnance, which will also contribute to the proper fulfilment by Ukraine of its obligations under Article 6, paragraph 3, of the Convention on the Prohibition of the Use, Stockpiling, Production and Transfer of Anti-Personnel Mines and Their Destruction	constantly	state budget other sources (donor funds, funds of international organisations)	increased awareness of explosive hazards risk among civilians	Ministry of Reintegration of the Temporarily Occupied Territories of Ukraine Ministry of Culture and Information Policy of Ukraine SESU

Task	Initiative	Timeframe	Sources of funding	Progress indicator	Agency Responsible for Implementation
8. Facilitating efficient coordination of explosive ordnance risk education, entailing the formulation and implementation of a unified educational curriculum on explosive ordnance risks tailored to the diverse needs of social and age groups	1) developing an annual plan of awareness raising activities aimed at reducing the social and economic impact of explosive ordnance on the life and activities of the population, and analysing the results of its implementation	annually		an annual plan of information activities to educate the public about explosive ordnance risk was approved and an analysis of its implementation was conducted	Ministry of Reintegration of the Temporarily Occupied Territories of Ukraine SESU Ministry of Defence of Ukraine National Police of Ukraine Ministry of Education and Science of Ukraine

Task	Initiative	Timeframe	Sources of funding	Progress indicator	Agency Responsible for Implementation
	2) conducting training on first aid for people involved in humanitarian demining under the First Responders programme	constantly		100 percent of people involved in humanitarian demining who were sent to the First Responders training – received a relevant training and first aid training	Ministry of Health of Ukraine Structural units on health care matters of Kyiv Regional military administration, State institution 'Ukrainian Scientific and Practical Centre of Emergency Medical Care and Disaster Medicine of the Ministry of Health of Ukraine
9. Ensuring adequate and accessible social protection for people affected by explosive ordnance, including through effective cross-sectoral coordination on the organisation of	3) improving the coordination of EORE trainings through the adoption of a standard	2025		a standard on Explosive ordnance risk education (EORE) was adopted	Ministry of Economy of Ukraine Ministry of Defence of Ukraine
	1) regulating the coordination of assistance to individuals affected by explosive ordnance	2024	state budget	a draft law on amendments to the Law of Ukraine "On Mine Action in Ukraine" was prepared and submitted to the Cabinet of Ministers of Ukraine a decision on amendments to the resolution of the Cabinet of Ministers of Ukraine of 10	Ministry of Economy of Ukraine Ministry of Social Policy of Ukraine Ministry of Reintegration of the Temporarily Occupied Territories of Ukraine

Task	Initiative	Timeframe	Sources of funding	Progress indicator	Agency Responsible for Implementation
<p>respective assistance, provision of appropriate and accessible social rehabilitation services and accessibility and barrier-free access to communities where such people live</p>	<p>2) ensuring the provision of social services to the population affected by explosive ordnance</p>	<p>constantly</p>	<p>local budget other sources (donor funds, funds of international organisations)</p>	<p>November 2021 No. 1207 on determining a single central executive body responsible for implementing state policy and ensuring interaction between central executive bodies in the organisation and coordination of assistance to individuals affected by explosive hazards</p> <p>organisation of social services for the population affected by explosive hazards</p>	<p>Ministry of Health of Ukraine local self-government bodies (with consent)</p> <p>local self-government bodies (with consent) Regional military administrations Kyiv Regional Military Administration National Social Service of Ukraine Ministry of Social Policy</p>

Task	Initiative	Timeframe	Sources of funding	Progress indicator	Agency Responsible for Implementation
					of Ukraine Ministry of Economy of Ukraine SESU Ministry of Internal Affairs of Ukraine
	3) conducting awareness-raising activities among the population regarding social guarantees for individuals affected by explosive ordnance.	constantly	local budget, other sources (donor funds, funds from international organisations).	increased awareness of the population affected by explosive ordnance regarding social guarantees	Local government bodies (with consent), regional military administrations, National Social Service.
	4) conducting a needs assessment for individuals affected by explosive ordnance regarding social services and assistance (including medical, psychological, professional, and social support)	Q2 2025	municipal budget other sources (donor funds, funds of international organisations)	assessing the social service needs of the individuals affected by explosive hazards	local self-government bodies (with consent) Regional military administrations Ministry of Reintegration of the Temporarily Occupied Territories of Ukraine National Social

Task	Initiative	Timeframe	Sources of funding	Progress indicator	Agency Responsible for Implementation
	5) providing a one-time compensation and annual health support to persons and children with disabilities, who have been classified as such due to health injuries caused by explosive ordnance	constantly	state budget (Budget program 2507110 "Social Protection of Persons with Disabilities")	90 percent of the submitted applications, taking into account the established legal grounds, have been granted with the one-time compensation and annual health support	Service of Ukraine Ministry of Health of Ukraine Ministry of Social Policy of Ukraine Ministry of Social Policy of Ukraine Fund for Social Protection of Persons with Disabilities
	6) addressing the issue of providing an additional one-time payment to persons and children with disabilities under the age of 18, who have been classified as such due to health injuries caused by explosive ordnance in Ukraine from 2022 to 2024, considering the possibility of donor assistance.	2025	other sources (donor funds, funds of international organisations)	financial assistance from international institutions and organisations have been leveraged. A draft resolution by the Cabinet of Ministers of Ukraine has been developed and submitted, proposing an additional one-time payment to persons and children under 18, who have been classified as disabled due to health injuries caused by explosive hazards in Ukraine from 2022 to 2024	Ministry of Social Policy of Ukraine Ministry of Economy of Ukraine Ministry of Health of Ukraine

Task	Initiative	Timeframe	Sources of funding	Progress indicator	Agency Responsible for Implementation
	7) organising assistance and rehabilitation in the healthcare sector for individuals affected by explosive ordnance	constantly	state budget, (Program of state guarantees for medical services for the population) other sources	medical and psychosocial assistance as well as rehabilitation in the healthcare sector have been organised and provided to 100 percent of those affected by explosive ordnance.	Regional military administrations local self-government bodies (with consent) other central executive authorities National Academy of Medical Sciences
	8) providing free assistive rehabilitation devices on the biopsychosocial model of the International Classification of Functioning, Disability, and Health.	constantly	state budget (Budget program 2507110 "Social Protection of Persons with Disabilities")	the level of provision of rehabilitation aids is over 80 percent of the total number of applications submitted for the provision of rehabilitation aids	Ministry of Social Policy of Ukraine Ministry of Health of Ukraine Fund for Social Protection of Persons with Disabilities
	9) increasing awareness about social protection programs implemented in local communities for individuals affected by explosive ordnance	constantly	state budget, municipal budget other sources	comprehensive information about social protection programs for individuals affected by explosive ordnance, implemented in local communities, is	local self-government bodies (with consent) Ministry of Infrastructure of Ukraine Ministry of Social Policy of Ukraine

Task	Initiative	Timeframe	Sources of funding	Progress indicator	Agency Responsible for Implementation
	10) raising awareness about rehabilitation programs and initiatives in local communities for individuals affected by explosive ordnance	2024-2026	municipal budget	available on official websites.  comprehensive information about social protection programs for individuals affected by explosive hazards, implemented in local communities, is available on official websites.	National Social Service of Ukraine  local self-government bodies (with consent)
	11) dissemination of information about the rights of individuals affected by explosive ordnance on an online platform on the Internet.	2024	other sources (donor funds, funds of international organisations)	information about the rights of individuals affected by explosive ordnance and ways to enforce them is placed on an online platform on the Internet.	Centre for Humanitarian Demining Ministry of Economy of Ukraine Ministry of Social Policy of Ukraine Ministry of Health of Ukraine
10. Reducing the environmental impact of contamination by explosive ordnance and managing associated risks.	1) conducting research on the environmental impact resulting from the use of mechanised humanitarian demining equipment.	Q4 2025	state budget other sources (donor funds, funds of international organisations)	setting requirements for evaluating the environmental impact of mechanised humanitarian demining equipment in technical regulations.	Ministry of Defence of Ukraine Ministry of Environmental Protection and Natural Resources of Ukraine Ministry of Economy of Ukraine

Task	Initiative	Timeframe	Sources of funding	Progress indicator	Agency Responsible for Implementation
	2) establishing requirements for environmental protection during demining operations.	Q4 2025	state budget other sources (donor funds, funds of international organisations)	environmental protection requirements have been implemented within demining operations at all stages.	State Scientific Research Institute of Armament and Military Equipment Testing and Certification Ministry of Defence of Ukraine Ministry of Environmental Protection and Natural Resources of Ukraine Ministry of Economy of Ukraine State Scientific Research Institute of Armament and Military Equipment Testing and Certification
	3) developing training programs to enhance the qualifications of police officers to perform tasks related to disposal of explosive ordnance equipped with radioactive, chemical, biological, and nuclear	2024	state budget	police officers, in their official duties, will apply theoretical knowledge and practical skills regarding the specifics of explosive ordnance equipped with radioactive, chemical, biological, and nuclear	National Police of Ukraine Ministry of Internal Affairs of Ukraine

Task	Initiative	Timeframe	Sources of funding	Progress indicator	Agency Responsible for Implementation
	materials, conducting such operations under conditions of radiation, chemical, biological, and nuclear contamination.			materials, and procedures for conducting such operations under conditions of radiation, chemical, biological, and nuclear contamination.  Training completed: <ul style="list-style-type: none"> <li>● 2024: 12 individuals</li> <li>● 2025: 24 individuals</li> <li>● 2026: 24 individuals</li> </ul>	
Strategic Goal 3: Development of Mine Action Management System.					
11. Providing the necessary capacity for executive authorities responsible for managing mine action, including in external monitoring;	1) Strengthening the capacity of conformity assessment bodies to perform functions of certification, monitoring the compliance of mine action operators, as well as inspecting demined areas, taking into account the expansion in the number of operators.	Q3 2024	state budget	conformity assessment bodies have a sufficient number of specialists to conduct inspections of all cleared areas according to annual plans and to carry out supervision and certification monitoring of mine action operators	Ministry of Defence of Ukraine SESU Centre for Humanitarian Demining

Task	Initiative	Timeframe	Sources of funding	Progress indicator	Agency Responsible for Implementation
	2) enhancing the capacities of the Mine Action Centre	constantly	state budget other sources (donor funds, funds of international organisations)	the Mine Action Centre has increased its capacity for analysing the operations of mine action operators, coordinating, and supporting them. The Mine Action Centre has sufficient personnel and necessary technical and material resources for its effective functioning	Ministry of Defence of Ukraine Ministry of Economy of Ukraine Mine Action Centre
	3) providing sufficient information about working peculiarities of mine action operators.	Q3 2024	other sources (donor funds, funds of international organisations)	step-by-step description regarding working peculiarities of mine action operators has been introduced on the official website, demine.gov.ua	Centre for Humanitarian Demining Ministry of Economy of Ukraine

Task	Initiative	Timeframe	Sources of funding	Progress indicator	Agency Responsible for Implementation
12. Implementation of an effective mine action task prioritisation system based on comprehensive criteria, taking into account social, economic (including agriculture and forestry), environmental, and other relevant factors;	1) developing a methodology for priority setting in mine action	2024	state budget other sources (donor funds, funds of international organisations)	a draft of a regulatory act on the approval of the methodology for priority setting in mine action has been developed and submitted to the Cabinet of Ministers of Ukraine	Ministry of Economy of Ukraine Ministry of Defence of Ukraine Ministry of Internal Affairs of Ukraine SESU other central executive authorities local self-government bodies (with consent)

Task	Initiative	Timeframe	Sources of funding	Progress indicator	Agency Responsible for Implementation
	2) establishing a prioritisation system for contaminated areas subject to humanitarian demining, according to their economic, social, and security importance	2024		a joint decree by the Ministry of Economy and the Ministry of Agrarian Policy has been adopted to approve the Methodological Recommendations for determining the prioritisation of contaminated areas subject to humanitarian demining. Conditions have been created to restore the economic activities of agricultural producers, ensure the state's food security, and its export potential through the categorisation and prioritisation of demining (humanitarian demining) efforts. This includes agricultural land, non-agricultural lands, coastal areas, water bodies, and lands of the water fund, ensuring recreational and environmental protection activities	Ministry of Economy of Ukraine Ministry of Agrarian Policy and Food of Ukraine Ministry for Strategic Industries of Ukraine Ministry of Defence of Ukraine Ministry of Internal Affairs of Ukraine SESU other central executive authorities local self-government bodies (with consent)

Task	Initiative	Timeframe	Sources of funding	Progress indicator	Agency Responsible for Implementation
13. Ensuring coordination of mine action efforts at the local level and implementing effective communication between executive authorities and local self-government bodies at the national and local levels	1) organising the work of regional headquarters to implement mine action measures in regions affected by explosive ordnance, defining tasks and cooperation methods with the National Mine Action Authority	2024	state budget	a single "window" system has been introduced for receiving and disseminating information about mine action operations, eliminating duplicate reports and briefings	National Mine Action Authority Regional military administrations
14. Establishing a unified information management system for Mine Action activities;	1) digitalisation of the certification process for mine action operators and mine action activities	2024	state budget donor funds international technical support	the provision of electronic public services for the certification of mine action operators and mine action activities has been ensured	Ministry of Digital Transformation of Ukraine Ministry of Economy of Ukraine Ministry of Defence of Ukraine Ministry of Internal Affairs of Ukraine SESU
15. Ensuring effective utilisation of international technical assistance in Mine Action activities;	1) developing a monitoring system (effective management system) for international technical assistance	2025—2026	state budget other sources (donor funds, funds of	the information and communication system for data exchange regarding the needs for international	Ministry of Economy of Ukraine Secretariat of the Cabinet of Ministers of Ukraine

Task	Initiative	Timeframe	Sources of funding	Progress indicator	Agency Responsible for Implementation
	2) enhancing communication with donors and other international partners in the mine action area	constantly	international organisations)	technical assistance has been created leveraging financial and technical assistance provided to Ukraine by international institutions and organisations, as well as foreign states, in the form of expert assistance, provision of necessary material resources, or funds allocated for specific needs	Ministry of Defence of Ukraine Ministry of Economy of Ukraine Ministry of Defence of Ukraine Ministry for Veterans Affairs of Ukraine
	3) developing a "single window" mechanism for government entities to submit requests for international technical assistance to donors and ensure accountability to donors for the assistance provided	ongoing	state budget other sources (donor funds, funds of international organisations)	a "single window" mechanism has been introduced for government entities, where they are able to submit requests for international technical assistance to donors and ensure accountability to donors for the assistance provided	Ministry of Economy of Ukraine Ministry of Defence of Ukraine Ministry of Internal Affairs of Ukraine SESU State Special Transport Service National Police of Ukraine National Guard of Ukraine Centre for humanitarian demining

Task	Initiative	Timeframe	Sources of funding	Progress indicator	Agency Responsible for Implementation
16. implementation of mechanisms to prevent the engagement of individuals in work on contaminated areas outside established requirements, and determination of accountability in case of their involvement in such work.	1) amending the Criminal Code of Ukraine to establish criminal liability for conducting business or other activities in areas classified as dangerous or potentially dangerous	Q1 2025	state budget	a draft of the law to amend the Criminal Code of Ukraine has been developed and submitted to the Cabinet of Ministers of Ukraine to introduce a mechanism preventing individuals from working in dangerous areas and engaging in mine action activities without complying with legal requirements	Ministry of Defence of Ukraine Ministry of Internal Affairs of Ukraine SESU National Police of Ukraine Ministry of Economy of Ukraine
	2) establishing administrative liability for conducting demining activities by entities that have not acquired the status of a mine action operator; theft, destruction, damage, or improper storage of signs marking dangerous or potentially dangerous areas	Q2 2025	state budget	a draft act has been developed and submitted to the Cabinet of Ministers of Ukraine to introduce the relevant legislative changes	Ministry of Defence of Ukraine Ministry of Internal Affairs of Ukraine SESU National Police of Ukraine Ministry of Economy of Ukraine
	3) establishing financial liability for involving individuals in demining activities who do not have the status of a mine action operator. Determining the	Q3 2025	state budget	a draft has been developed and submitted to the Cabinet of Ministers of Ukraine to introduce the relevant legislative changes.	Ministry of Defence of Ukraine Ministry of Internal Affairs of Ukraine SESU National Police of

Task	Initiative	Timeframe	Sources of funding	Progress indicator	Agency Responsible for Implementation
	authority responsible for recording violations and holding individuals accountable				Ukraine Ministry of Economy of Ukraine
